09:15 – The meeting objectives been presented by the Project Coordinator.

-to evaluate IO1 , the part dedicated to teachers

-to analyze the work developed so far for IO2 and to learn how to offer training opportunities for students in the form of 7 modules from different technical domains that may be taught in 30 hours to disadvantaged students .

-to establish the tasks that must be accomplished in the next 3 months

- to explain how it will be done first intermediary project report and which documents are needed in paper form .

Mrs Eleonora Dragomir explained on the GANT graphic of the project which activities had been carried out and what partners should do next . She underlined that despite the long period of project work without a face to face meeting all the partners collaborated well, done a synchronized good work for IO1 , the e-learning moodle platform of the project .

09:30 - Presentation of the evaluation process for the project e-learning platform and conclusions
Mrs Monica Moreno from M&M Profuture Training SL presented the evaluation report .

Conclusions: Strengths

- :The platform has a good looking interface , it is accessible and intuitive

- A big number of teachers already logged in the platform and tested it

Weaknesses:

- Some chapters are shorter than others , the evaluation items are missing in some parts
- The lessons do not have same alignment
- There are not covered all the digital tools available for making lessons
- There is need for a classified catalogue of online tools for making digital lessons

Proposals for improvement

- To create an evaluation section where will be questionnaires from all chapters .
- To make more visible and intuitive the translation facility of the platform
- To create a short presentation of each lesson at the beginning
- To create possibility to see the lessons on the platform as a guest

10:00 - Presentation of 2 modules from different technical domains deliverable face-to- face or on-line

Mrs.Airinei Liliana presented the module " Digital fashion design "

Mrs Vaideanu Claudia presented the module "Organization of Databases "

Both modules presented are in a project phase but the pilot trainings in each of ASCETIS and Hello PC organizations begun . The project coordinator proposed to be crated specialized group discussions on facebook for the participant learners . All partners accepted the proposal.

11:00 - Coffee Break

11:30 - Presentation of 3 modules from different technical domains deliverable face-to- face or on-line

Mrs Elena Zarkovska from SABA Macedonia presented the module "Autocad for beginners "

Mr Ugur Celik from ATATURK MTAL presented the module "3D printing "

Mrs Gabriela Brandusa Horlescu resented the module "ARDUINO" for robotic coding .

Each of the 3 moduled been of a real interest for all participants . Many questions about the digital projection , robotic coding and 3D printing been posed and found good answers and advice from the presenters .

The coordinator proposed to be added ready made projects from each of the presented modules to be centralized in a database as a very efficient source of inspiration for the learners and for the design of new lessons.

14:00 - Lunch all together

15: - Presentations of the chapters of IO2 DIGIT+ Guide already created by partners :

- Mrs Monica Moreno presented the chapter: "Intercultural and intergenerational connection on digital education: what teachers can bring in the on-line inclusive school based on an an inclusive and cross-cultural and cross-generational digital communication."
